Github: https://github.com/abhirambirakati Mobile:+91-9063375279

Skills

Languages: Python, C++, Java, JavaScript
Frameworks: HTML and CSS, NumPy, Pandas, Matplotlib, Seaborn, Scikit-Learn
Tools/Platforms: Git & GitHub, Microsoft Excel, Power BI, MySQL
Soft Skills: Problem-Solving Skills, Project Management, Adaptability

Projects

EDA on Sales and Profits Trends (2021–2024) | GitHub Link — Apr'25 – Jun'25

- Conducted an exploratory data analysis (EDA) on four years of sales and profit data (2021–2024) to identify key business trends, seasonal patterns, and underperforming segments
- Built detailed visualizations using Matplotlib and Seaborn to clearly illustrate seasonal sales patterns, profit distribution, and the relationship between discount levels and sales volume
- Performed statistical inference tests, including Z-test, t-test, proportion test, and Chi-square test, to validate key business hypotheses
  Tech: Python, Pandas, Matplotlib, Seaborn

Sales and Profit Dashboard | GitHub Link — Apr'25 – Jun'25

- Designed and developed a dynamic, multi-year sales and profit dashboard using Microsoft Excel to support business performance monitoring
- Utilized advanced Excel features—including PivotTables, slicers, Power Query, and conditional formatting to analyze revenue trends and highlight key insights
- Automated data cleaning and transformation workflows using Excel formulas and Power Query to ensure accurate, consistent, and analysis-ready datasets
  Tech: Microsoft Excel

Advanced Disk Scheduling Simulator | GitHub Link — Oct'24 – Dec'24

- Developed an interactive Python/Tkinter application to simulate and compare six disk scheduling algorithms used in operating systems
- Benchmarked algorithm performance by calculating total seek time, average seek time, and system throughput to evaluate efficiency
- Visualized real-time disk head movement using Matplotlib to highlight differences in algorithm behaviour and performance
  Tech: Python, NumPy, Tkinter, Matplotlib

Certificates

- Solutions Architecture Job Simulation by Forge | Link — Nov'25
- Digital Systems: From Logic Gates to Processors by Coursera | Link — Dec'24
- Software Engineering: Implementation and Testing By Coursera | Link — May'24
- English Grammar Pro | Beginner to Advanced (A1- C1) Grammar by Udemy | Link — Nov'23

Achievement

- Secured 3rd position in RC Extreme 2.0 — May'24

Education

Lovely Professional University — Punjab, India
Bachelor of Technology - Computer Science and Engineering; ***CGPA: 6.13*** — *Since Aug'23*

Sri Chaitanya Junior College — Visakhapatnam, Andhra Pradesh
Intermediate; ***Percentage: 95%*** — *Jun'21 – May'23*

Sri Chaitanya Techno School — Srikakulam, Andhra Pradesh
Matriculation; ***Percentage: 100%*** — *Jun'19 – Apr'20*
